## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

The instant invention claims a substantially transparent, abrasion resistant film and a method to obtain such a film, comprising a plurality of surface-treated nanocrystalline particles.

The closest prior art references that relate to the claimed invention are Havey'514, '163, Tao'971, Nguyen'656, Brotzman'907, '781, Penth'657, McCulley'830 and '296. The prior art teaches that it is known in the art to produce a substantially transparent, abrasion resistant films comprised of a cross-linked resin and a plurality of surface treated particles dispersed in cross-linked resin. However, the prior art does not teach or suggest the instant invention wherein the specific composition and structure of particles are claimed..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
